Schneider Electric Canada recalls 9001SKRU Multi-Speed Push Button Units due to the possibility of Misoperation

The Electrical Safety Authority is notifying the public that Schneider Electric Canada has announced a voluntary recall of the following industrial product. Industrial customers should stop using recalled products immediately.

Name of Product: Square D brand model 9001SKRU-2, -3, -4 and -5 Multi-Speed Push Button Controller. These push buttons may have been sold separately, or as part of a model SKYP pendant control station.

Units: There are 38 push button units in Ontario, and 12 in the remainder of Canada, for a total of 50 units.

Manufacturer/Importer: Schneider Electric Canada.

Hazard: It is possible that insufficient lubrication may cause the pushbutton to not operate as designed. The current-carrying contact carriers may not open the electrical circuit, or may not open or close the electrical circuit in the correct sequence as expected.

Incidents/Injuries: No injuries or damages have been reported.

Description/Models: Square D model 9001SKRU-2, -3, -4 and -5 push button unit, date codes 1001 through 1041 only.

Sold by: Various electrical distributors.

When was distributed: Between January 1, 2010 and December 31, 2010.

Manufactured in: Mexico

Remedy: Customers should stop using the product immediately and contact Schneider Electric for return instructions and free replacement pushbuttons.

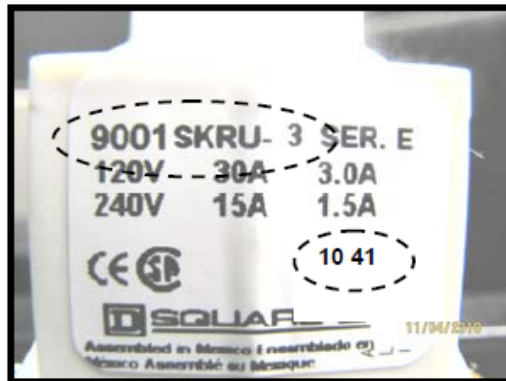

Consumer Contact: Customers should contact the Schneider Electric Canada Recovery Administration team at your earliest convenience.
