Ontario Electricity Rebate (OER)

Effective November 1st, 2022, the OER is 11.7%.

All residential and small commercial customers are automatically eligible for the rebate. You do not need to apply. Certain categories of customers including retirement homes, mobile home parks and common areas in residential multi-unit complexes such as condominium buildings need to submit a self-declaration form to receive the rebate.

Visit our website at: haltonhillshydro.com/rebates/ to apply.

Electricity Charge - The cost of electricity supplied to you during the billing period. Prices are set by the Ontario Energy Board. (OEB.ca)

Electricity Charge	1 st 750 kWh/month: 8.7 ¢/kWh Above 750 kWh/month: 10.3 ¢/kWh	Hourly Ontario Energy Price Administered by IESO (IESO.ca)
	If you have a contract with an electricity retailer, their price applies here instead	
Global Adjustment	If you have a contract with an electricity retailer, you will see a line item called Global Adjustment which varies monthly. Visit the IESO website at www.ieso.ca for more information on the Global Adjustment.	

Delivery Charges - The cost to deliver electricity from generating stations across the province to Halton Hills Hydro then to your home or business

Monthly Service Charge	19.30 / month	\$13.07 / month	\$2.51 / month / connection
Distribution Charge	\$0.0194 / kWh	\$51.6501 / kW	\$4.2084 / kW
Transmission Network	\$0.0089 / kWh	\$2.7486 / kW	\$2.7358 / kW
Transmission Connection	\$0.0065 / kWh	\$1.9892 / kW	\$1.9487 / kW

Adjustment Factor - The delivery charge also includes costs relating to electricity lost through distributing electricity to your home or business. Equipment, such as wires and transformers, consumes power before it gets to your home or business. The adjustment factor is 3.55%.

Regulatory Charges - The cost of administering the wholesale electricity system, maintaining the reliability of the provincial grid and conservation programs.

Standard Supply Charge	\$0.25 / month	\$0.25 / month	\$0.25 / month
	This line item does not apply if you have a contract with an electricity retailer.		
Market Service Charge	\$0.0052 / kWh	\$0.0052 / kWh	\$0.0052 / kWh

Additional Customer Classes

microFIT Generation Accounts – A monthly service charge of \$4.55/month applies.

Electricity Charge for some customer accounts - there are certain customers in all classes who, based on regulation, pay a two tiered price for electricity. For Residential Customers, the first tier is 600 kWh/month from May 1st to October 31st. The first tier is 1000 kWh/month from November 1st to April 30th. For Commercial accounts, the first tier is 750 kWh/month year round.

Electricity Charge	Residential:	Commercial:
	1 st 600 kWh/month 8.7 ¢/kWh	1 st 750 kWh/month 8.7 ¢/kWh
	Above 600 kWh/month 10.3 ¢/kWh	Above 750 kWh/month 10.3 ¢/kWh

Glossary of Terms

Electricity: This is the cost of the electricity supplied to you during this billing period and is the part of the bill that is subject to competition.

Delivery: These are the costs of delivering electricity from generating stations across the Province to Halton Hills Hydro then to your home or business. This includes the costs to build and maintain the transmission and distribution lines, towers and poles and operate provincial and local electricity systems. A portion of these charges is fixed and does not change from month to month. The rest are variable and increase or decrease depending on the amount of electricity that you use. The delivery charge also includes costs relating to electricity lost through distributing electricity to your home or business. * Halton Hills Hydro collects this money and pays this amount directly to our suppliers.

* When electricity is delivered over a power line, it is normal for a small amount of power to be consumed or lost as heat. Equipment, such as wires and transformers, consumes power before it gets to your home or business.

Regulatory Charges: Regulatory charges are the costs of administering the wholesale electricity system and maintaining the reliability of the provincial grid.

Global Adjustment: Generators in Ontario receive a combination of payments from the operation of the wholesale market, payments set by regulation and payments under contracts. Your portion of the net adjustments arising from these and other authorized payments is included on your bill as the Global Adjustment.
