- Construction, operation, troubleshooting, and maintenance of the electrical distribution system, including overhead and underground of various voltages (up to and including 44kV);
- Perform live line work on overhead and underground electrical distribution lines of up to 44kV;
- Weekly standby duty; emergency and planned overtime;
- Manage ESA permits and necessary locate requirements;
- Service and trouble-shoot electrical related issues;
- Ensure all work meets ESA and internal requirements;
- Responsible for completing work / service orders within the allotted time frames;
- Ensure all installation/service work is done according to quality standards;
- Report and communicate according to company procedures;
- Assist with work overflow as needed;
- Follow all company policies and procedures;
- Adhere to all company safety policies; report all near-miss and incidents immediately;
- Complete paperwork as required – job Planning, tailboards, timesheets, traffic planning
- Performance of all work within health and safety regulations, company standards, industry standards and applicable regulatory codes;
- Other duties as assigned.

SKILLS/QUALIFICATIONS:

- Certification as a Journeyman Powerline Technician;
- Excellent knowledge of the construction and maintenance of overhead and underground power lines;
- Must be literate and able to perform manual mathematical calculations involving addition, subtraction, multiplication and division;
- Ability to read blueprints and interpret drawings;
- Dedicated to maintaining a safe work environment for the protection of fellow employees and the general public. Must have an excellent safety record and continually demonstrate safe working habits and mechanical aptitude
- Understand and practice EUSR Safety Rules, the Occupational Health & Safety Act, ESA requirements and all other applicable legislation and safe work practices;
- Current certificates in First Aid, CPR and WHMIS;
- Ability to work in a physically demanding environment that includes heavy lifting, stretching and pulling, climbing, working at heights and extreme weather conditions;
- Proven interpersonal skills and practical experience effectively dealing with challenging customers and situations using tact and diplomacy;
- Excellent analytical skills with the ability to identify and consider alternatives, and make recommendations on alternative directions;
- Must be able to demonstrate focus and attention to detail. Must be organised;
- Experience in the areas of safety, teambuilding, efficiency and productivity;
- A valid Ontario's Driver's License in good standing with Class "DZ";
- Basic computer knowledge;
- Must be in excellent physical condition to perform the duties.

WHAT WE OFFER:

- ✓ Comprehensive total compensation package, with an hourly wage of \$48.67;
- ✓ Recognise prior years' experience as a PLT at other companies to establish vacation entitlement;
- ✓ Opportunity to work with an experienced utility team;
- ✓ Direct experience within a highly regulated industry;
- ✓ Working in an environment with a strong commitment to safety;
- ✓ Training and development support and opportunities.
