

Senior Engineering Technologist/Technician

Acton, On | Full Time | Union | On-Site

Halton Hills Hydro Inc. is a community-focused electric distribution utility servicing approximately 23,000 homes and businesses across a 281sq. km service territory within the Town of Halton Hills. Located 15 minutes north of the 401, our office is accessible by GO Train and bus, and falls within a 35km radius of major urban centres, such as Guelph, Milton, Brampton, Mississauga, Cambridge, and Orangeville. The Town is ranked as one of the top small communities in Canada by a national magazine.

At Halton Hills Hydro, safety for our employees and the community is our number one priority; we care about our work, our customers, and our business. We have a commitment to delivering quality service and each member of our team has a responsibility to help one another achieve success and satisfaction on the job, experiencing one of the highest growth models in all of Ontario. HHHI is regulated by the Ontario Energy Board (OEB).

Halton Hills Hydro Inc. is currently seeking a dynamic, highly motivated individual to fill the position of **Senior Engineering Technologist/Technician**. Under the direction of the Engineering Manager, the successful candidate will be a member of the senior engineering team preparing design and cost estimates, work order packages for various electricity distribution system projects, providing mentorship for Engineering Technicians, and participating in stakeholder technical committees.

Duties and Responsibilities

The duties for this position will include, but not be limited to, the following:

- Plan and design overhead and underground distribution, sub-transmission, and substation projects for capital, recoverable, and maintenance work;
- Prepare project estimates, work orders, bills of materials, letters, permits, agreements as required to expand and maintain the electrical facilities and distribution system;
- Plan, design, and maintain utility SCADA system including alarm monitoring, data analytics, develop test procedures for data acquisition, and make recommendations to the Manager;
- Coordinate, monitor, and evaluate projects and budgets to ensure on scheduled completion;
- Review and respond to 3rd party attachment applications for O.Reg. 22/04 compliance including general tracking of applications in database and issuing of permits;
- Process distributed generation applications, prepare Offers to Connect, Agreements, drawings, and oversee projects through connection, and update databases;
- Prepare distribution system load modelling and fault current reports;
- Research and prepare new and revised construction standards and purchasing specifications, including making recommendations to the Manager;
- Inspect work of electrical consultants, developers, and municipal agencies to ensure their plans and work are acceptable to and meet Halton Hills Hydro Inc. standards;

- Provide support and guidance to Engineering Technicians and Operations on various subjects;
- Review and comment on municipal development applications;
- Attend municipal or regional working groups/technical committees where HHH is a stakeholder;
- Adhere to all Occupational Health & Safety Act rules and regulations, the IHSA Rule Book and HHH policies and procedures;
- Wear personal protective equipment as required;
- Perform other duties as required.

Skills and Qualifications

- Graduate of a Community College Electrical Engineering Technology or Technician program, or equivalent;
- Registered with OACETT as a Certified Technician; Certified Engineering Technologist;
- Minimum 7 years of experience in design and project management related to subdivision, underground, and overhead distribution projects;
- Proficiency with AutoCAD; experience with SPIDAcad and SCADA systems considered an asset;
- Strong attention to detail with excellent organizational and time management skills;
- Demonstrated ability to work effectively both independently and as part of a team, with strong collaboration and communication skills;
- Self-motivated and able to learn and adapt quickly in a dynamic work environment;
- Must possess a valid Ontario Class G driver's license with a good driving record.

What We Offer

- ✓ Comprehensive total compensation package;
- ✓ Opportunity to work with an experienced utility team;
- ✓ Direct experience within a highly regulated industry;
- ✓ Working in an environment with a strong commitment to safety;
- ✓ Training and development support and opportunities.

How to Apply
